International Early Years in partnership with the University of Chester is pleased to invite you to their first International Conference in the North West:

Friday 3rd July 2015 at
University of Chester, Warrington Campus

The ‘Business of Early Childhood’ conference is unique in its scope and will explore new international perspectives on:

- Early childhood leadership
- Interdisciplinary thinking
- Social impact
- Engagement with business

within the context of what really matters and is most urgent for our babies and young children now.
THE CONFERENCE AIMS TO:

- Bring together leading international thinkers, practitioners and academics around the subject of what matters most for young children now, and how we unleash children's potential to establish successful behavioural patterns that last for life
- Explore the creative approaches taken by other countries to link effective early childhood practice with the economics of business, leading to improved outcomes for all – today and tomorrow
- Provide the opportunity to establish dynamic networks that create stronger connections between successful early childhood practice, business interests, academic research and young children's learning and development

CONFERECE THEME

‘Investing directly in families and in children’s wellbeing is both a social and moral imperative as well as an economically sound investment strategy for the future’

Maria Kiwunaka, Minister of Finance, Uganda

WHO SHOULD ATTEND?

The ‘Business of Early Childhood’ Conference invites business and education leaders, academic scholars and early childhood practitioners from both the public and private sectors:

- University lecturers and researchers
- Business leaders, economists and innovators
- Teaching schools and alliances
- National, Local and Specialist Leaders of Education
- Local Authority leaders of services for children
- Postgraduate and undergraduate students
- Professionals working with families across health, family support and social care
- Leaders, managers and professionals working in schools, nurseries and pre-school settings
- Stakeholders in charities and social enterprises

THE CONFERENCE WILL FOCUS ON:

- Vital Understandings – understanding the science of building resilient brains and the role of ‘executive functioning’ in early childhood alongside new global developments in neuro-scientific research
- Savings now, savings later – the case for Early Intervention. The enduring benefits of effective stage appropriate early childhood provision and safeguarding arrangements
- Tomorrow’s science starts with early childhood: championing STEM (Science, Technology, Engineering and Maths) in the Early Years
- Mental health and wellbeing of young children – the case for early ‘character education’ and stress free learning
- Working in new ways with business to promote early childhood and build innovative economies
- Changing leadership mindsets for even greater impact and success
